

# KEVIN WEGENER

I am a filmmaker, animator, and artist from Lake Tahoe. Growing up I was more interested in television and movies than engaging with my peers, spending countless hours drawing in front of the TV. I've been drawing since I could hold a pencil with interest in animation coming soon after. While animation and drawing were my first passions, most of my experience comes from editing, camera work, and production audio. In my personal life, I enjoy directing and cinematography.
